

Army C5 Other Transaction Agreement (OTA) Update Brief

C5 OTA Program Management Office (PMO)
PEO IEW&S/PM EW&C

UPDATES

- The ARMY C5 OTA vehicle continues to be an exemplary tool to enter into agreements for the development of new capabilities in an accelerated timeline.
- The following changes have recently been incorporated into the base C5 vehicle:
 - **Cost Plus Fixed Fee (CPFF)** is now allowable in addition to Firm Fixed Price (FFP)
 - Circumstances do not allow the agency to define its requirements sufficiently
 - Uncertainties involved in costs to be estimated with sufficient accuracy to use fixed price
 - Unknown Materials/Travel
 - Reduced Consortium Fee from **3.8%** to **2%** of the Project
 - Increased the estimated value of the C5 OT Agreement from **\$2B to \$7B**
- Current Period of performance to execute new projects is through April of 2027

C5 OT Agreement Players

- At any time throughout the year, program managers can solicit technology solutions for their funded requirements from the consortium membership; program managers maintain project execution.
- An independent transparent interface between government program managers and ACC-NJ/APG to ensure ACC's expectations are met and statutory compliance is maintained.
- Army Contracting Command - New Jersey (ACC-NJ) Administers the C5 OT Agreement and has granted ordering Authority to ACC-APG
- C5 is the Consortium for Command, Control and Communications in Cyberspace; C5 is a CMG-managed consortium
- Composed of leading companies, nonprofits and academic institutions across the information technology/C5ISR domain

C5 OTA Process Flow

Becoming a C5 Consortium Member

- New members can join at any time
- All member are free for their first year
- Open to large and small business, non-profits and academic institutions
