EWPMPT FIELDING, TRAINING, SUPPORT AND PRE PLANNED PRODUCT IMPROVEMENT SERVICES

DESCRIPTION: Electronic Warfare Planning and Management Tool (EWPMPT) is a software application that gives the Commander and the CEMA Cell/Element the mission capabilities to plan, coordinate, manage, control and de-conflict the Electromagnetic Spectrum (EMS). It provides battle management for distributed, networked EW capability, aligned with fires and synchronized air/ground electromagnetic spectrum operations across the intelligence, operations, and spectrum management areas of responsibility in support of Multi-Domain Operations.

The anticipated 5-year period of performance includes the scope of work for a range of services necessary for the design, build, integration, testing, delivery, fielding, training, maintenance, configuration management, and sustainment of EWPMPT.
